

# SUSTAINABILITY IN ACTION

**What is OnePlanet?** OnePlanet is a sustainable initiative showcasing Morguard's effort and commitment to supporting the environment across all our properties.

### Battery Blitz October 1 – 31

Call2Recycle will be setting up a large collection bin at all our shopping centres during the month of October and will also be providing retailers with a mini version of the collection box for their stores & services. Signage will assist in communicating the importance of recycling batteries and the harm it causes to our environment.

Take the battery recycling challenge in October – look for these boxes in Morguard shopping centres across Canada! Customers can scan the QR code for a chance to win prizes!

Throughout October our centres will either be offering craft kits to-go or will be hosting a craft event in the shopping centre for children to design their own battery storage collection box. Kids will also pick up a tip sheet and learn how to properly store batteries, where to drop them off and the benefits to the environment.

Shout out to retailers that offer a used battery collection program for customers and helping our environment.

For more information on battery recycling visit [www.call2recycle.ca](http://www.call2recycle.ca)

## 2022 Morguard Sustainability Highlights

Morguard Canadian Office and Retail Portfolio Performance\*

- 4.2% Reduction in Energy Usage**
- 12.3% Reduction in GHG Emissions**
- 16.8% Reduction in Water Usage**

\*Compared to 2019 Baseline

A building is part of the fabric of a local community, a place where people live, work, shop and gather. That's why it is essential for Morguard to work with our tenants, residents and guests to deliver positive experiences and reduce adverse impacts to our communities. We actively support the health, wellness and vitality of our neighbourhoods, setting sustainability priorities for new developments, existing properties and renovations. Morguard partners with local governments to contribute to their environmental objectives and encourage members of our team to participate in activities that bring people together and delivery community connectivity through green spaces, internet access and community resources in our buildings.

**#OnePlanet #SustainableMorguard #Gogreen**

Our collaboration with Earth Rangers continues to flourish. This Canadian kids' conservation organization is committed to instilling knowledge, positivity, and confidence in children across the country to take environmental action. We are thrilled to be partnering with this inspiring charity to help our customers feel empowered to make a difference. Visit the Earth Rangers website to find more about their growing programs and educational activities at [www.earthrangers.com](http://www.earthrangers.com), or follow them on social media.

## Calling all Earth Rangers!

We're proud to partner with the world's largest children's conservation organization. Earth Rangers is committed to instilling knowledge, positivity, and confidence across the country to help kids take environmental action.

Together, we empower families to make a difference. Visit [earthrangers.com](http://earthrangers.com) to learn more about their educational programs and fun eco-friendly activities

## You'll Go Wild for These Animals

We just launched our BRAND-NEW slate of adoptable animals! Every time you buy a wildlife adoption kit, you welcome an adorable new cuddle buddy into your home - we donate the proceeds to conservationists who are working to save real-life animals!

This year, we're proud to support six conservation projects, preserving habitats from the Arctic Circle to the jungles of Costa Rica! Three of our researchers are working in Canada's tundra to save polar bears, caribou, and ringed seals. Another scientist is making space for swift foxes in the prairies, and another is clearing invasive species out of moose, river otter, and Eastern wolf habitat in the Frontenac Arch. Out west, in the Rockies, you can find American badgers and bighorn sheep in our Kootenay Ranch preservation project. And finally, down South, a whole team of researchers is hard at work preserving the Osa Peninsula for jaguars.

You can adopt all these animals and more at [earthrangers.com](http://earthrangers.com)!

## Earth Ranger Emma Returns

She's back! This season on the award-winning Earth Rangers podcast, Emma's on a mission to explore—and conserve the precious parkland of Canada and the United States. Tune in for her Ultimate Guide to National Parks in the Earth Rangers app, or wherever you listen to podcasts!

## Time to Get Gross

Does your kid love getting dirty? Eating things they find between couch cushions? Treating their clothes like a napkin? Why not take it to the next level - and fight climate change - with our Gross-Out Challenge? We've got eight unique, fun, and kinda gross habits for your kids to try out at home. From staggered showers to sustainable sneezing, there's something for everyone. Get started now in the Earth Rangers app.
