Desktop computers		

Unifor Local 444 Canada Community Services Committee

The Community Services Committee of Unifor Local 444 collects used bikes from the community, refurbishes them, and gives back (through schools in our community) to local children who would not be able to have one otherwise. Our Committee has been dedicated to this project for over 10 years and has been able to give hundreds of bikes back to kids in Windsor-Essex County. This project helps to recycle used bikes, encourages a healthy lifestyle and establishes the freedom of transportation.

Outdoor Recycling Items:

Bikes

Crime Stoppers

Crime Stoppers is a civilian run charitable program that allows members of the community an opportunity to provide anonymous information to help police solve crime. Take Back Your Drugs Day will ensure that your unwanted or expired medications are properly disposed of and will eliminate the risk that they will end up on the street. Money collected from shredding will be donated to the Windsor & Essex County Crime Stoppers to pay our tipsters. Local dollars solve local crimes! We are the only charity committed to solving crime in our community!

Outdoor

Take Back Yours Drugs Day - Dispose of unwanted or expired medications safely.

First Stop Services - Paper Shredding

Fraudsters and identity thieves don't just target larger companies, they seek out small business and personal accounts, too.

Outdoor

Shred your documents and other files for only \$10 a banker box. A surcharge of \$5 will be added per box if the following is not removed: file folders, elastics, clips, CDs, and non-paper items.

Small Businesses - our shred cart or slim boy is perfect for sharing with your BIA neighbours!
Mondays, Seniors (60+) receive 10% off. (Drop off only.)

Society of Saint Vincent de Paul

For more than 123 years, Society of Saint Vincent de Paul has helped the needy in Windsor and Essex county. Today, with the help of public donations, SSVP works "green" magic in our resale stores and Society Shoppes for the benefit of our community. Donations of gently used clothing, household goods, furniture and electric appliances are sorted and prepared for resale by employees and volunteers. Clothing items that are unsuitable for resale are bundled and sold to distributors and recyclers. Every year we keep more than 43,000 lbs of textiles out of our landfills. Cords are stripped for their metal which in turn is recycled. Bicycles are sent to volunteers for refurbishing and are either sold to the public at affordable prices or given to those in need. The ultimate goal for SSVP is to find a prudent use for all donated goods, therefore eliminating waste.

Money generated through the sale of donated goods in the five area Society Shoppe locations is used to support its many charitable projects. Society Shoppe is the only resale charity to provide those in need with a store voucher, so they can shop at no cost. "We truly are a one-stop charity for the needy" says Rosanne Winger, General Manager. "When people call asking for help, we are able to provide not only food, but assistance with clothing and furnishings thanks to our generous donors."

Outdoor Recycling Items:
Gently used clothing • Accessories • Shoes

Recycling Makes Cents

Recycling Makes Cents was started in 2006 in a small industrial building. Zack Hakim (owner) had an idea about recycling large volumes of cardboard and paper and rebating customers for their recycling efforts. Within a few years, this idea grew so that the company had to move to its present location and to expand into other material as their customer base grew.

Since inception, the company has had to increase staff and equipment to keep up with customers' needs and they are always researching different materials to recycle. Recycling Makes Cents offers to recycle management to both the private and public sectors and services residential, commercial and industrial customers within Windsor & Essex County.

We provide:

- Custom designed recycling programs
- Green team development
- Industrial, commercial and residential customers welcome
- Incentive programs and promotional offers
- Equipment sales and service
- Easy in and out payment
- Pick up service is available
- Registered used tire collection site
- Bin rentals
- Open to the public with a public scale cardboard and paper

Outdoor Recycling Items:

Metal recycling • Batteries • Old magazines and books

YQG Green - City of Windsor

Together we can make Windsor-Essex a little more greener! The idea for a Green Networking Group started by Elizabeth Elias-Hernandez when she hosted her first annual CPC Earth Day Open House in 2017 for her former employer (now client) Contents Processing Centre. The group was formed and was named CPC Green Connections. In 2021, they renamed the group to YQGgreen to welcome everyone from our Windsor-Essex Community. They were featured in the City of Windsor Virtual Earth Day Hour celebration. The Vision is to work together so we can be the resource for a greener, more sustainable, and more vibrant Windsor-Essex!
